Please, not all commands are . It is a personal decision if you want to keep this knowledge or not. This is a list for Siemens specific AMO commands. I have written this list after reading the documentation found on the Siemens website. In some cases I have not found an official document and therefore I have to guess the functionality of the command. + {{AMO|+|List commands, actions and properties of a Menu|Lists the commands, actions and properties of a Menu. You can specify the Menu number or use the menu number of the first Menu. You can specify the menu type, .| {{Amo-Commands, list of Siemens AMO commands and general description|this list contains the list of commands and descriptions that I have found after trying to open the AMO with my Siemens IP PBX. The Siemens IP PBX is a Siemens Siemens HiPath 4000 IP PBX. | type={{Siemens|PBX|Telephony}} | documenturl={{MediaWiki|{{i|Siemens}}}} }} ==Commands== {{#pending|{{Command|Command actions list of Siemens HiPath 4000 IP PBX}}|This action list is currently being reviewed. Please be patient.}} {{#pending|{{Command|menu properties, actions and commands}}|This action list is currently being reviewed. Please be patient.}} {{#pending|{{Command|playback record}}|This action list is currently being reviewed. Please be patient.}} {{#pending|{{Command|Set menu type, actions and properties}}|This action list is currently being reviewed. Please be patient.}} 82157476af
